

ECOSCOPE
routing the microcosmos

Graduate Training Program extended application deadline June 1, 2018

Are you a UBC graduate student interested in the interface
between cutting-edge science and innovative business?

The Ecosystem Services, Commercialization Platforms and
Entrepreneurship (ECOSCOPE) industrial stream NSERC
CREATE training program can provide you with the
professional and entrepreneurial training to augment your
research skills and empower you to commercialize your
scientific innovations.
